Dialog and understanding, education and science, integration and civic involvement, young culture: the Körper Foundation is active in these areas with many of its projects. It offers citizens who are not content with merely keeping the status quo the opportunity to participate actively, and provides them with ideas and initiatives.

Founded in 1959 by the activist entrepreneur Kurt A. Körper in Hamburg-Bergedorf, today the foundation operates with national and international projects and events from locations in Hamburg and Berlin.
